Summary

Motivated and versatile developer with experience in C#/.NET who has completed a professional course at FoxmindEd Learning Center. Over a year of freelancing experience working on various C# projects, including console applications, WinForms, WPF, Telegram Bot, and ASP.NET, as well as development in C++. I am familiar with popular databases, most of which I have used in my projects. I have experience in database design and architecture. A team player who is adaptable, eager to learn and tackle new challenges, with a proactive approach to problem-solving and a willingness to help others.

Skills

Programming Languages & Paradigms:

- C#, C++, SQL
- HTML, CSS
- Object-Oriented Programming (OOP)

Databases:

- MS SQL Server
- MySQL

Testing:

- Unit Testing

Frameworks & Technologies:

- ASP.NET, ASP.NET Core, MVC
- Windows Forms, WPF
- MVVM
- REST API
- Entity Framework

Tools & Platforms:

- Visual Studio
- Azure
- Git
- PowerShell

Experience

Freelance – January 2024 – Present

I work on projects of various complexity in C#: console applications, WinForms, WPF using the MVVM pattern, Telegram Bot using the Bot API, ASP.NET with the MVC pattern, as well as ASP.NET Core Web API. I have also worked on projects in C++. I frequently performed individual tasks in different RDBMS using SQL and integrated databases into most of the projects.
